Learning Programs for Colleges and Universities

From data security to sexual misconduct and workplace harassment, higher ed administrators focus each day on addressing the issues that threaten their campus communities. Canopy Programs helps colleges and universities prevent and respond to these risks through tailored online training based on real issues faced in higher education. Our learning programs, developed by United Educators (UE), draw on more than 30 years of experience handling claims in the education world.

Use our courses to:

- **Prevent incidents and claims:** Heighten awareness of high-risk and unlawful behaviors to help safeguard your campus

- **Engage learners:** Provide immersive learning experiences using our highly-rated and interactive online courses

- **Stay ahead of the curve:** Educate learners on today's most pressing issues using real-life, data-driven scenarios

Education-Specific Scenarios

Education-specific, real-life scenarios are the basis for our learning programs. When individuals understand the risks posed by certain situations, they are more likely to avoid them or respond in a manner that prevents an incident. The scenarios presented are based on analysis of claims that have been reported to UE.

As you work to address the important issues in education and protect your students, our learning programs can help. Courses such as *Mosaic: Prevent Sexual Violence Together* and *Impressions* educate students, faculty, and staff on preventing and reporting sexual assault. And, our data security course on phishing provides learners with a high-level overview of phishing scams and practical tips for avoiding them.

Custom Services

The Canopy Programs learning programs can be tailored to incorporate your institution's policies, logo, and colors. This allows the online learning experience to integrate with other training initiatives, better fit the campus culture, and improve training rollout, implementation, and completion rates.

What Learners Say About Our Online Training

"This was one of the best instructional aids for this topic I have used. The message was clearly communicated and gave the student many opportunities to practice handling situations in a safe virtual setting."

"We will be reviewing our code of conduct and recommending this course as part of mandatory training for faculty and coaches."
